

hanging the charlestonropehammock

Select the area and anchor points to mount your charlestonropehammock. These points must be about 15 feet (4.5m) apart and must include two load bearing vertical beams such as trees, stud lumber from an existing structure, or a professionally mounted sturdy, wooden post. If the tree or post distance is less than 15 feet apart, you will need to raise the point where you install the eyelag. Drill a small pilot hole for each of the two screw hooks using a 3/16" (3mm) drill bit, drill a hole on each side (approximately 4" (10cm) deep.

These holes should be approximately four to five feet above the ground. The mounting hardware included in this package is intended for installation with solid wood. It should not be used with brick, metal, plaster, or drywall. Insert each screw hook into the pilot hole and tighten until the eye of the screw is touching the surface of the hole and the threads are completely embedded in the wood. Hang your charlestonropehammock on the installed hardware.

If the anchor points are too far apart, it may be necessary to attach an additional piece of chain or rope and S-hooks to each of the hammock's O rings, thus extending the reach of your hammock.

important
The charlestonropehammock has a rated load of 500 pounds.

adjusting your hammock

Fine tuning of your hammock is possible for maximum comfort. Raise or lower the hammock by using the chain supplied. The first time you sit in your hammock it will stretch as much as 12 inches (30cm), so be careful as you sit. Also, any rope you use may stretch. Again, be careful as you sit. This hammock should be used by a maximum of two people and their combined weight should not exceed 500 pounds.

washing and care instructions

Using a soft brush and warm soapy water, scrub where necessary. Allow to dry on a flat surface or by hanging.

warning: Not suitable for washing machine, tumble dryers or chemical bleaches.

important reminders

Spinning or swinging in the hammock is not recommended. The ropes may loosen, which may result in injury.

about your warranty
